Reasons for Allowance

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

While Meriwether (Patent No. 5,931,913) discloses operating a client to establish a network connection with a server using a logon protocol such as a Telnet protocol including negotiating environment parameters for establishing a connection with the server. The host provides a connection confirmation but Meriwether does not teach providing a confirmation record that includes diagnostic information describing connection status with a device name and a response code.

And Clark (Patent No. 6,304,905) teaches providing notification to a client whether an access server is on-line during a communication session by looking to see a negative response from a server. Clark does not need to receive any response from a server in order to identify if the server is on-line or active. A none-responsive from a server indicates the server is off-line.

Neither of these references taken either alone or in combination discloses a method and device for operating a Telnet client to establish a network connection with a server having all the claimed features of applicant's instant invention, specifically including: providing to the client a confirmation record containing descriptive information about a connection which is held for the duration of a file transfer or dialog consisting of, for a successful connection, a success response code and diagnostic information including said virtual device name and, for an unsuccessful connection, diagnostic information including an error return code indicative of the cause of failure of said connection. Also, there is no motivation to combine the Meriwether reference with

the Clark reference to meet these limitations. It is for these reasons that applicant's invention defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
